Von Morris Abington/Square Bevel Multi-Point lock trim is Custom Made to Order. Your trim will be crafted to the door specifications/details/measurements you provide.

In classic Von Morris style, paying exacting attention to detail, all Von Morris Escutcheon Plates may be modified to fit a multitude of Multi-Point Locks in either Euro Profile Cylinder or American Cylinder.

The Von Morris American Cylinder Multi-Point trim is different from other manufacturers . Von Morris has redesigned every aspect of the Multi-Point Trim, including the American Cylinder Mounting Blocks. Instead of one generic block mounted to all styles, each suite gets its own unique suited block. For Euro Profile Cylinder trims, the Turn Piece mounted to the Profile Cylinder is the same design as the trim.

Von Morris is the only mainline manufacturer to stay true to its suited line, offering the same attention to detail that is available in every Knob, Lever, Rose and Escutcheon Plate. This allows you to complete a full hardware schedule with the same style, detail, quality, and value for which the Von Morris product has come to be known.
