

## Art Deco Locking Privacy Cremone Bolt

### Features:

Von Morris Art Deco Cremone Bolts feature a solid brass case CNC milled from brass billet and guides with an internal mechanism of brass and stainless steel. The Locking Cremone case is very narrow, less than 1.7", for use on narrow stiles of French doors and windows. Cremone Bolt locks from the exterior with a rim cylinder and inside with a turnpiece. Cremone case contains a cassette mechanism that can be handed simply by reversing the cassette. The Cremone can also be easily changed from lever operation (90° rotation) to knob operation (180°) simply by relocating the spindle. Shoot Bolts are attached to the Cremone mechanism with machine screws. Cremone Bolt design is very clean, featuring concealed Shoot Bolt guides. **Price Includes Art Deco Turnpiece and Cylinder Collar along with either a pair of Art Deco Levers or Knobs, and a small Art Deco Rose for the exterior**

### Guides::

End Guides have a flat spring operating on the front of the bolt to prevent rattling. The length of the Guide and placement of the spring conceals any scratches on the bolt caused by the spring. This End Guide design allows the bolts to be installed on the door and then cut to length at the job site.

### Locking Cremone Case Size:

Length of Cassette:	10.825"
