

ERIC MORRIS & COMPANY

VON MORRIS HARDWARE

Eric Morris has been designing and manufacturing decorative architectural hardware for more than 30 years. He is passionate about his work and it has always been his goal to produce heirloom quality products that will stand the test of time. Quality is inherent in the product, starting with the aesthetic design and carrying through to the manufacture with quality inspections at every step of production. Von Morris was founded in 1990 producing high end architectural hardware for the USA market. Over time the product line grew to incorporate all areas of door hardware.

The Von Morris brand was mainly marketed in the Americas from 1990 through 2008. Following 2008, the Von Morris brand was introduced to the China market. At the same time Eric Morris founded the Eric Morris & Company brand to build upon the heritage of Von Morris. The Eric Morris & Company brand takes the basis of quality in design and production and enhances that with the addition of hand craftsmanship. Hand chiseling adds a handmade texture and feel and imbues it with a soul. The company has completed many projects internationally; China Land (HBA Design) in Kunshan, Asia Pulp and Paper (APP) (architect: Richard Landry Associates, Interior Design: Bradfield & Tobin) in Sheshan, Shanghai, along with many historic properties in Shanghai, Jakarta as well as hotels in Macau and Manila, Philippines. These are but a few of the projects we have completed. The two brands continue to work on some of the most prestigious projects in China and the world.

The materials used are mainly brass, bronze and stainless steel. Modern high tech processes such as 3D solid modeling, 3D printing and CNC machining are used to produce a high precision product. More traditional methods such as hot forging, precision lost wax casting, hand chiseling and hand polishing are added to the mix of processes to elevate the products from simply high quality door hardware to works of art. Each piece is touched by human hands over and over in the manufacturing process to ensure that only the finest product, both mechanically and aesthetically, leaves the factory. We feel that it is our unique combination of precision processes and traditional craft that separates our products from those of any other brand, or any other nation.

EXTRAORDINARY ARCHITECTURAL HARDWARE

Terms and Conditions of Sale

Terms: Net 30 days. To establish an open account, submit a signed credit application for approval prior to shipment. Orders pending credit approval will be shipped upon payment by card. Orders being held on account of credit status may ship at the price in effect the day the order is released. If we do not receive a payment in full on or before its due date, a minimum late charge may be assessed at the rate of 1.5% per month or the highest rate permitted by applicable law, whichever is less.

Pricing: Prices are subject to change without notice. All shipments will be invoiced according to current prices in effect at time of order. All prices shown in the price list are in U.S. Dollars. We are not responsible for misprints or typographical errors. We reserve the right to discontinue or change specifications on any item without incurring any obligations.

Drop Ship Charge: \$10.00 Net

Delivery: Shipments are delivered to the common carrier or small package delivery service in good condition. Full performance by us shall be deemed to have occurred upon delivery to the transportation company. Shipments become the property of the purchaser who assumes full risk for loss or damage in transit. We reserve the right to cancel or decline all or part of orders in which the price, finish or quantity is not in agreement with our policy. Shipping schedules are an estimate based on our judgment and cannot be guaranteed, nor can these estimates be considered legally binding. Out of stock items will be back ordered unless otherwise noted by the customer. Merchandise shall be shipped surface freight. We reserve the right to select final carrier of any shipment. When customer specifies a route with a higher rate, the difference will be added to the invoice. Delivery is made to the curb or dock side only.

Freight Policy: FOB our Warehouse or shipping point, pre-paid on orders of \$2,000 net invoice value sent through routing of our selection. On shipments to Alaska and points outside the Continental U.S.A., freight shall be allowed, as above, to ocean shipping points.

Claims and Returns: All claims for damages and shortages must be reported to us in writing within 5 days of delivery. Returned goods will not be accepted without written authorization. Returns will not be accepted unless RMA number supplied by us is clearly marked on each box. RMA numbers are valid for 30 days from the issue date. All items are subject to our inspection and must be returned in original condition and packaging. A minimum of 25% or \$25.00 (whichever is greater) will be imposed as a re-stocking charge. An 80% handling charge will be imposed on products returned not in saleable condition, including missing or damaged parts and/or damaged packaging. Special order goods and finishes are not returnable. This includes all Multi-Point Trim, Suited Pocket Door Trim, Custom Finishes and Custom Product. Any product damaged in shipping due to customer negligence will not be accepted for return credit. All request for returns must be made within 120 days of purchase and exceed \$25.00 net value at the original invoiced price. All credit returns must be shipped FREIGHT PREPAID. Eligible returns will receive a credit memo to be used against future purchases only.

Special Orders: Special orders shall be accompanied by a non-refundable deposit of 50%. Production will not begin until after receipt of deposit. Special order deposits cannot be refunded after 5 days receipt of a valid purchase order.

Limited Warranty:

1) CLEAR COAT FINISHES: Even though we apply the finest protective coatings to the surface of our products, these protective coatings have their limitations and in time may deteriorate. We do not consider excessive wear or tarnishing of these finishes as a result of any of the conditions listed below in paragraph 3 as a defect, but rather we consider it a normal process which cannot be avoided; thus we cannot guarantee our clear coat finishes. This warranty does not include and VMC does not assume any liability for deterioration of our clear coat finishes.

2) ETERNA™ life long finish: The **ETERNA™** life long finish is a PVD Titanium finish guaranteed not to tarnish, pit, flake or discolor for as long as the original purchaser owns their home. This finish is designated as 605E in all of our literature.

3) PRODUCTS: We warrant that all our products are free from defects in material and workmanship for a period of one (1) year from date of original purchase when properly installed and used for the purpose intended by us. We do not assume any responsibility for damage caused by accident, misuse, weather or climate or other effect of nature, improper storage, abuse, improper installation or maintenance. We do not assume any obligation other than replacement or repair of the defective part or parts upon inspection, along with proof of purchase during the warranty period. We are not liable for any labor charges, removal and reinstallation expense, freight or postage or any incidental or consequential damages resulting from any defective product.

THE FORGOING WARRANTY IS EXCLUSIVE AND IS IN LIEU OF ALL OTHER WARRANTIES OF FITNESS AND MERCHANTABILITY.

ETERNA™

life long finish

605E ETERNA™
life long finish.
Proprietary PVD
Titanium Finish

The rich luster of highly polished brass has been cherished for centuries for its luxury, quality and elegant beauty. An inherent characteristic of brass, however, is that without fail it will tarnish over time due to exposure to air, moisture, and ultraviolet rays. Clear coat finishes have delayed the tarnishing, but by no means stopped it. It has never been possible to offer a guarantee for a clearcoat finish.

We are very pleased to offer you our **ETERNA™** *life long finish* as the solution to this problem.

ETERNA™ *life long finish* is a proprietary blend of space age materials which is applied to Von Morris hinges in multiple layers over polished brass to produce the durability of armor plate.

ETERNA™ *life long finish* is guaranteed to the original buyer not to tarnish, pit, flake or discolor for as long as he or she owns the product.

ETERNA™ *life long finish* products are supplied with screws and accessories in a matching **ETERNA™** *life long finish*.

ETERNA™ *life long finish* is available on most products. It is identified by the finish code 605E.

We have now made it possible for you to enjoy the elegance and beauty of polished brass with the assurance of the permanence of its lustrous finish.

**The following decorative finishes are produced using hand relieving processes. From offhand buffing with cotton wheels to hand rubbing with pumice stone, these processes are used to bring out the detail and luster of the product. Because of the hand crafted nature of these finishes, there will be slight variations in color, texture and tone. These are a natural result of this hand crafted process and indicate the care and attention used in producing your hardware.*

Door Handing

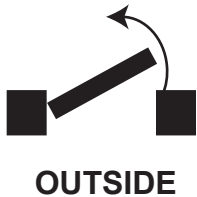

Hinge Handing

Door is handed when viewed from the **OUTSIDE**

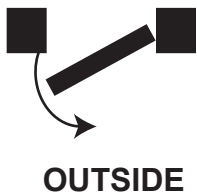

- The outside of of a cupboard/cabinet, bookcase or closet door
- The outside of other doors is typically the side where security (key cylinder/deadbolt) is necessary.

Left Hand Hinges

Left Hand Door - LH

Standing on outside, door opens inwards (away from you) and levers/knobs are on the **RIGHT** side of the door (this is also known as a Left Hand Inswing Door).

Right Hand Reverse Bevel Door- RHRB

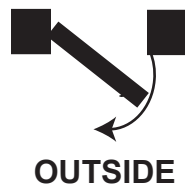

Standing on outside, door opens outwards (towards you) and levers and knobs are on the **LEFT** side of the door (this is known as a Right Hand Outswing Door).

Right Hand Hinges

Right Hand Door - RH

Standing outside, door opens inwards (away from you) and levers/knobs are on the **LEFT** side of the door (this is also known as a Right Hand Inswing Door).

Left Hand Reverse Bevel Door - LHRB

Standing on outside, door opens outwards (towards you) and levers and knobs are on the **RIGHT** side of the door (this is known as a Left Hand Outswing Door).
